

TIMBER lamitan

Impregnating cleaner for laminate and wooden floors

- Impregnating ■ Protective ■ Safe

Product profile

- TIMBER lamitan is a highly effective cleaning product for all water-sensitive and hard floor coverings.
- The highly effective formula of TIMBER lamitan produces an invisible protective film that does not impair the natural optics of the floor coverings or make them slippery.
- When TIMBER lamitan is used regularly as part of a normal cleaning routine, a protective shield forms, without any need for further polishing.
- Even the joints of laminate floors or sealed parquet floors which are susceptible to absorbing moisture and swelling can be permanently protected against the ingress of moisture.

Area of application

- TIMBER lamitan is ideally suited for the preserving cleaning of all high-quality hard floor coverings susceptible to absorbing moisture and swelling, e.g. unsealed wooden coverings, laminate and cork floors.

Application and Dosing

Dose in relation to application and degree of soil. Follow below instructions.

1.0-2.0 mL/L

Manual floor cleaning: wipe the floor with a drained wipe cover.

Ingredient declaration
